

**The Oregon Optometric Physicians Association** created this booklet to help educators and parents identify children with visually related learning problems. It has also proven very effective in helping to describe problem areas to parents following a thorough optometric vision examination.

**“The Effects of Vision on Learning and School Performance”** is an effective parent educational tool that should be available in every office. This book is dedicated to the many children who struggle to learn because of their undetected vision problems.

Sixteen short pages include the following:

- ✓ Summaries of the most common vision related learning problems
- ✓ Checklists of symptoms associated with vision problems
- ✓ Comparison of the limitations of testing and screening methods
- ✓ Summary of lens and vision therapy treatment options
- ✓ 13 reference bibliography

- Books are available in a minimum order of 25
- Quantity discount is available on larger orders
- Special discount available to OOPA Members, Educators and PTA’s

Quantity	Book Cost	Shipping/Handling	Total Cost
25 Books	.90 each	\$ 6.75	\$ 29.25
