

OREGON OPTOMETRIC PHYSICIANS ASSOCIATION

From the OOPA Membership Director,

Join our Family...

The OOPA is the “voice” for Oregon optometric physicians and we are dedicated to making Oregon optometry a stronger, better, and more visible profession. We encourage you to join our family of professionals who work to maintain and strengthen the future success of optometry.

Membership in the OOPA, your local society, and the American Optometric Association is an investment in your professional and personal future. As a member of the OOPA, you can help in making the association stronger, which will benefit YOU. The OOPA’s most valuable resource is its members and the time they contribute to the common good.

We need your support and participation to be an effective association. We look forward to hearing from you, supporting your needs, and adding your personal strengths to our organization.
