

# Oregon's Meeting at Eagle Crest Resort

July 22-25, 2021

## Event Faculty

**Spencer Johnson, OD, FAAO** received a B.S. in Neuroscience from Brigham Young University, and his Doctor of Optometry degree from the Pennsylvania College of Optometry. He is currently an associate professor at the Oklahoma College of Optometry where he teaches courses in neuro-ophthalmic disorders, healthcare systems, and epidemiology, and serves as a clinic chief.

Dr. Johnson is a principal investigator in the NIH funded RAPID study to evaluate the efficacy of povidone iodine in the treatment of viral conjunctivitis. He has lectured at national, regional, and state association meetings throughout the United States and Canada. Prior to his career in academia, Dr. Johnson worked in the refractive surgery industry, and owned a private practice.

**Gabby Marshall, OD, FCOVD** is the clinical director of Elemental Eyecare. In addition to providing comprehensive eye exams for children, she assesses, develops and directs the individualized vision therapy program for each patient. She is a graduate of Pacific University College of Optometry and a Fellow in the College of Optometrists in Vision Development (COVD). She is a member of the Oregon Optometric Physician's Association and the American Optometric Association. Dr. Gabby was the recipient of the 2001 Oregon Young Optometrist of the Year.

She loves the challenges of helping children in their development and being part of the wonderful team of healthcare providers that care for the children of Bend. Having grown up in Oregon she feels a strong sense of community in Central Oregon.

**Tracy Doll, OD, FAAO** completed both her undergraduate degree and doctor of optometry degree at Pacific University. She then went on to complete a residency in primary care optometry with emphasis in routine management of ocular disease at the Portland Veterans Administration Medical Center.

At Pacific, Dr. Doll teaches laboratories and lectures regarding ocular disease and procedural techniques. She is the lead instructor for the elective course, Spanish for the Eye Care Practitioner. You can also find Dr. Doll acting as the attending optometric physician for third- and fourth-year students in the school clinics.

Dr. Doll is the proud mother of two girls and enjoys playing with them in her time away from the university.

**Albert Edwards, MD, PhD, MBA** Albert O. Edwards, MD, PhD, MBA is the founder and managing partner of Sterling Vision, a complete vision, medical and surgical eye care practice with offices in Eugene, Springfield, Junction City, and Salem that is locally owned by its optometrists and ophthalmologists.

He is an affiliate associate professor in the Department of Ophthalmology, Oregon Health Sciences University, Portland, OR, a courtesy associate professor in the Department of Biology, University of Oregon, Eugene, OR. Dr. Edwards received his MD and PhD from Baylor College of Medicine in Houston, TX and additional medical training at the University of Illinois in

Chicago and Oregon Health Sciences University.

Past accomplishments include development of DNA typing technology used in modern forensics, identification of disease genes leading to mendelian eye disease, and discovery of common genetic variation contributing to macular degeneration and corneal endothelial dystrophy.

Dr. Edwards currently focuses on patient care and clinical trials supported by private industry, academic centers, and the National Eye Institute. He enjoys travelling with his wife and daughter, road cycling, and mountain biking.

**Stanley Teplick, MD** is an Adjunct Professor at Pacific University College of Optometry and has lectured internationally. He completed his medical training at the Mayo Clinic in Rochester, New York, where he was named chief resident in 1981.

Dr. Teplick participated in the original FDA studies leading to the approval of the Excimer Laser for corneal refractive surgery, and he performed the first PRK and LASIK procedures in the Pacific Northwest. Among many other innovative distinctions, he was one of the first 10 surgeons to implant the KAMRA Corneal Inlay in the U.S. following FDA approval and is the only surgeon certified to implant KAMRA Inlays for the correction of Presbyopia (near-vision loss) in

Oregon.

Originally from Philadelphia, Dr. Teplick studied Philosophy at the University of Chicago and San Francisco State University before attending Hahnemann Medical College and completing his residency in Ophthalmology at the Mayo Clinic.

Prior to his medical education, Dr. Teplick played jazz piano professionally in and around San Francisco, a talent he still relies upon for creative fulfillment.

**Aaron Bronner, OD** received his doctor of optometry degree from Pacific University. He then completed residency training in surgical comanagement and anterior segment disease at Davis Duehr Dean in Madison, WI. Aaron works at Pacific Cataract and Laser Institute, a multicenter surgical comanagement practice, in their Kennewick, WA office.

In addition to clinic responsibilities, Aaron is a columnist and contributing editor for *Review of Cornea and Contact Lens* and *Review of Optometry*, serves as an Adjunct Professor at PUCO through the Walla Walla VAMC residency program, and is on the leadership committee for the AAO's Anterior Segment Section. He has lectured extensively across the nation on topics of anterior segment pathology and surgical comanagement. Aaron enjoys spending his free time with his wife and their kids.

**Robert Ford, MD** is co-founder and owner of Pacific Cataract and Laser Institute. He was an early pioneer of ophthalmologists and optometrists working together to comanage patient care. Dr. Ford received his ophthalmology residency training at Loma Linda University Medical Center in Loma Linda, CA.

In addition to participating in clinical studies of the excimer laser, Dr. Ford has made many innovations in cataract surgery and laser vision correction. His special interests include laser technology, computer programming, hiking, gardening, and flying. Dr. Ford also enjoys sharing his knowledge and supporting numerous charitable endeavors.

**Marshall Ford, MD** completed a degree in mechanical engineering before following his father into ophthalmology. After medical school at Loma Linda University in Loma Linda, CA, and residency training at Loma Linda University Medical Center, Dr. Ford completed a fellowship in cornea and refractive surgery at the University of Rochester Medical Center, Rochester, NY.

As a surgeon at Pacific Cataract and Laser Institute, Dr. Ford focuses most of his attention on cataract surgery and laser vision correction. He also enjoys time with his family, fitness training, computers, flying, and off-road motorcycling. He and his wife, a veterinarian, have two daughters.
