

Full Time private practice opportunity on the Oregon/Washington Coast at Coastal Eye Care. We are looking for a doctor to join our practices located in Astoria, OR; Seaside, OR; and Long Beach, WA. It is truly a stunning place to live and recreate, with a relaxed slower pace of life. Your big city fix is less than 2 hours away in Portland, OR so you really can have the best of all worlds. The 3 clinics are currently undergoing a full remodeled and most of the equipment is updated as well. The dispensary is fully stocked with current frames in all price ranges. Revolution EHR has been used for all office functions for the past 5 years. We have a great staff who take pride in their work. Typical of most rural practices, these have a heavy medical emphasis--you will be able to fully practice to the extent of your license. You will provide true family eye care to a population that is welcoming and thankful that you joined the community.

We offer:

- Competitive salary
- Quarterly production bonus
- Paid time off
- Paid medical insurance
- Paid malpractice insurance
- Paid service club dues
- No evenings or weekends
- Opportunity to buy in or to buy the entire practice.
