

Optometric Career with Purpose

At ABC Vision we believe everyone deserves superior service in eye care since vision is how we all see our world. The way we create superior service in eye care is by facilitating long-term and an unrushed Doctor/Patient relationship and following servant leadership principles. We provide state of the art diagnostic equipment (OCT, fundus camera, auto refractor Nidek automated phoropter) and high-value optical services with trusted eyewear brands delivered in convenient and connected locations in the neighborhoods and the communities we live in and serve.

We believe we are part of a community first and a company second. Hence, we put people first and lead with a servant mentality. Our Doctors and teammates care about patients but also insist on having fun and share the vision for providing world-class care and creating world-class patient experiences.

ABC Vision practices are expanding with bright new clinics in the Portland West Hills, Hillsboro, and Sherwood and we are always seeking new energetic members for the team.

We are currently seeking an Optometrist for 3 days per week. The current need is Sherwood and Hillsboro locations but must be open to working in our Hillsdale location in the future if needed. There is opportunity to increase days in 1- 2 years. This position currently is not an ownership position. Ownership options exist and begin at 5 days a week. Will provide mentoring for new graduates.

Whether you are preparing to graduate or are an experienced Optometrist, we welcome the opportunity to talk to you about how ABC Vision is building the infrastructure dedicated to providing Optometrists the support they need to serve their communities better and prosper in the type of practice they want as well as achieve their personal and professional goals.

If you want to be part of a better model in Optometry that puts the Doctor/Patient relationship foremost plus puts the Doctors back into the community and not in a box, let's talk over coffee.

Requirements include:

- Doctor of Optometry Degree from a college or university recognized by the Accreditation Council on Optometric Education or the American Optometric Association.
- Licensed to work as Optometrist in the state of Oregon in good standing.
- Ability to work with primary care, contact lens and ocular disease patients of all ages.

Preferred skills include:

- Board certification, residency in Ocular Disease and ability to speak Spanish a plus.

Description of the community:

.

- The Hillsboro location is area across from the new South Hillsboro development. The South Hillsboro area was once the historic Ladd-Reed farm, near the Reedville Cafe and is in the process of becoming a new and exciting part of the Hillsboro community with about 8,000 new homes of diverse types being built, a new Village Center, new schools and 286 acres of new parks and open space. The new South Hillsboro neighborhood will be part of the innovative city plan to meet the current and future needs of the growing Hillsboro community. The local employers are Intel, Synopsis, Salesforce.com and Nike.
- Our Sherwood location is in the Safeway Shopping Center next to Starbucks. Sherwood is a growing community with multiple new subdivisions at the beginning of the Willamette Wine Country. This is a very family friendly community with a loyal patient base.
